

## APPLICATION FOR FINANCING OF A HUMANITARIAN PROJECT

1.	<b>Name of the project</b>	Life without borders.
2.	<b>Name of the organization</b>	Novopolotsk Central City Hospital, Novopolotsk Nursing Hospital
3.	<b>Physical and legal address, phone, fax, e-mail</b>	4 Gaidar str., Novopolotsk, Vitebsk region, Republic of Belarus, 211443  e-mail: ncgb@tspiuin 80214506211 (fax) 80214506270 (phone)
4.	<b>Information about the organization</b>	The Novopolotsk Central City Hospital Healthcare Institution is a large multidisciplinary medical institution with 10 medical and preventive institutions, 14 specialized departments of the hospital hospital and 10 support services. On the basis of the city hospital, there are 4 inter-district departments (orthopedic traumatology, ophthalmology, urology, infectious diseases), as well as a computed tomography room, the palliative care department of the nursing hospital. 2 interdistrict centers with ACS and ONMC, 2 prenatal diagnostic

		rooms (on the basis of women's consultations of polyclinics No. 1 and No. 4), which provide specialized medical care to 10 districts of the Vitebsk region with a total population of about 450 thousand. Every year, more than 7 thousand patients are treated in inter-district departments, which is almost 28% of all those treated in the hospital. New modern diagnostic and treatment methods have been introduced in traumatology, ophthalmology, gynecology, endoscopy, laboratory diagnostics and computed tomography. More than 20 thousand people receive care at the hospital every year.
5.	<b>The head of the organization</b>	Chief Physician of the Novopolotsk Central City Hospital Healthcare Institution - Irina G. Shemenkova
6.	<b>Project Manager</b>	
7.	<b>Previous assistance received from other foreign sources</b>	
8.	<b>Required amount</b>	200000,00 (61000) (\$)
9.	<b>Co-financing</b>	
10.	<b>Project duration</b>	During 2024-2025
11.	<b>The purpose of the project</b>	The organization of a living space that contributes to the creation of favorable conditions for people with disabilities, the creation of a safe and barrier-free environment in the Novopolotsk Nursing Hospital.
12.	<b>The task of the project</b>	Improving the quality of life of the elderly and people with disabilities in the Novopolotsk Nursing Hospital by creating comfortable living conditions for patients
13.	<b>A detailed description of the activities within the project in accordance with the tasks set</b>	Target group: elderly and disabled people living in the Novopolotsk Nursing Hospital; Number of participants: 80 people Responsible person: I.G. Shemenkova  Expected results: The purchased equipment and re-equipment of the space for the convenience of people with disabilities will greatly facilitate their daily life, improve the quality of life, create comfortable living conditions and allow erasing the existing boundaries of the conditions of stay of patients in the hospital nursing care in Novopolotsk.
14.	<b>Justification of the project</b>	This area of humanitarian financing is one of the priorities, as it is aimed at supporting the most vulnerable categories of citizens. The lives of disabled and elderly people with chronic diseases are already a struggle every day. Therefore, any means aimed at facilitating this "struggle", at creating comfortable and high-quality living conditions for this category of citizens, are extremely important and necessary.
15.	<b>Post-project activities</b>	Further exploitation of the received material assets within the framework of the implementation of this project.
16.	<b>Project budget</b>	200000,00 (61000) (\$)
